

Your Donations Make a Difference

WACOSA.ORG

Thanks to your generous contributions, WACOSA is providing adults with disabilities the opportunity to work and live in their community by empowering them to reach their fullest potential, offer business solutions and build community. WACOSA is committed to spending donor dollars wisely, and these are just a few examples of how your gifts make a difference.

Reaching Fullest Potential

- Our job coaches build self-confidence by helping clients overcome barriers to employment.
- We alter client's perception of self-worth by identifying strengths and skills.
- With specific job training and support, clients are prepared to succeed in their careers.
- We improve client quality of life with increased independence and a means to live.

Offering Business Solutions

- Our clients provide affordable outsource solutions for business customers. Through in-center work opportunities, clients deliver high quality services, such as assembly, fulfillment, recycling, confidential document shredding and more.
- Individual placement or small group work crews make community employment an option for clients. From short-term projects to long-term employment, WACOSA clients help meet the diverse needs of central Minnesota businesses.

Building Community

- By working alongside other community members, our clients break down stereotypes that are often associated with those who have a disability.
- We provide the opportunity for clients to advocate for the disability community by offering ways to speak with their local and state representatives.
