

Your Donations Make a Difference.

Thanks to your generous contributions, WACOSA annually provides over 600 adults with disabilities the opportunity to work and live in their community by empowering them to reach their fullest potential. We are committed to spending donor dollars wisely and these are just a few examples of how your gifts make a difference.

Reaching Fullest Potential - 86% of WACOSA's resources go directly to program services that provide Central Minnesota adults with disabilities the opportunity to work and live in their community. These programs include:

- Autism Spectrum Disorders Program
- Employment Programs (multiple)
- Senior Program
- School-to-Work Transition
- Day Training & Habilitation (DT&H)
- Community Alternatives for Disabled Individuals (CADI)

Supporting Services - 14% of WACOSA's resources go to supporting services, such as management and fundraising.

WACOSA is a nonprofit that works for adults with disabilities, building a circle of support that empowers individuals to develop skills, explore and pursue employment, and foster community connections from graduation through retirement.
